

Getting Good With Git

Christina Workman

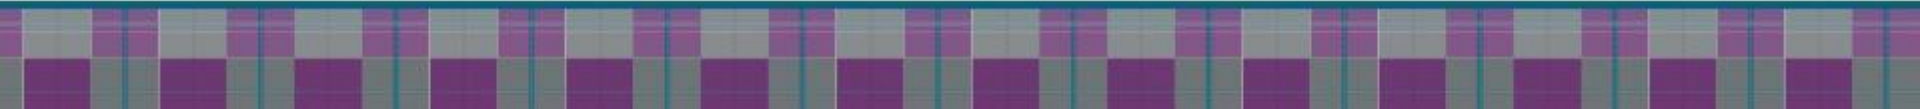

A little bit about me

- WordCamp & Meetup organizer
- Frontend Developer at [Americaneagle.com](https://www.americaneagle.com)
- 10+ years in WordPress
- Lover of tea and all things purple

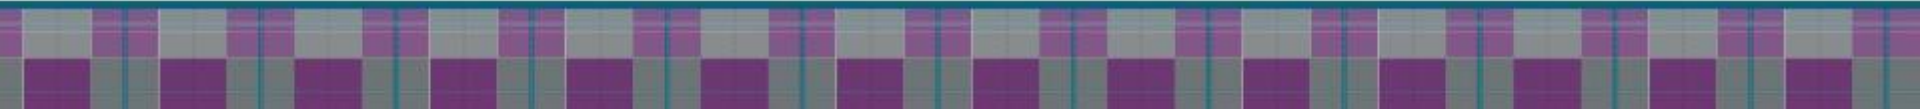

Welcome to the Calgary WordPress Meetup Group!

- Code of Conduct
- Quick intros

What is Git?

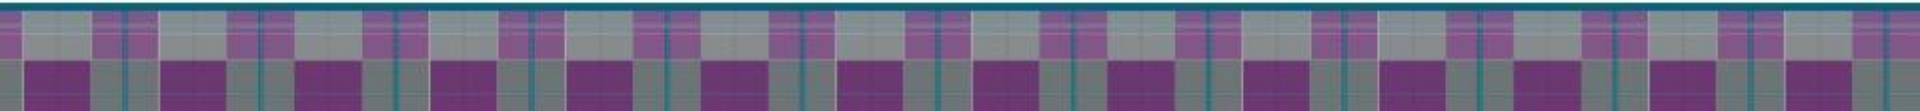

Git:

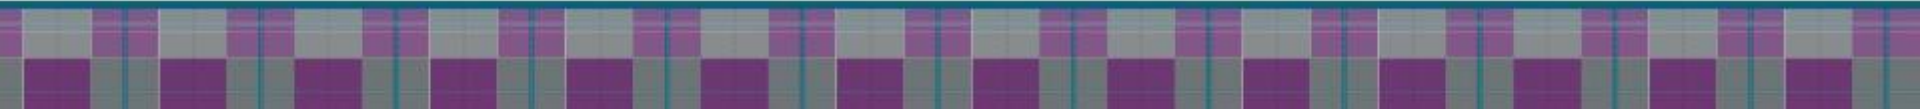

- Free, open source software
- Version control: tracking files, revision history
- Command line or GUI
- <https://git-scm.com/>

GitHub:

- Online platform to host git repositories (repos)
- Track issues, bugs, plans, discussions
- Share and collaborate with others
- <https://github.com/>

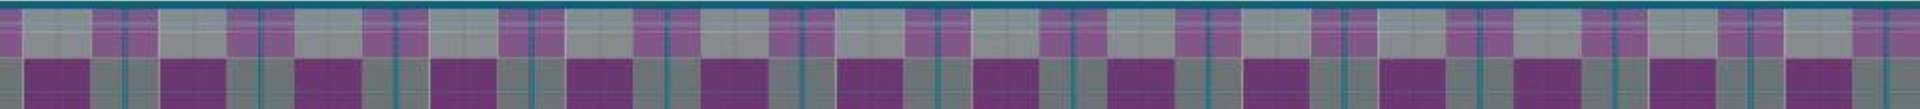

What is Hacktoberfest?

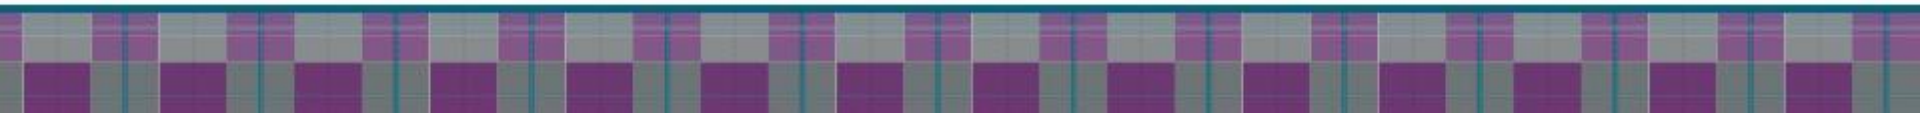

Hacktoberfest:

- Annual event run by DigitalOcean
- Encourages contributions to open source projects, like WP
- Focus this year on low and no code contributions
- <https://hacktoberfest.com/>

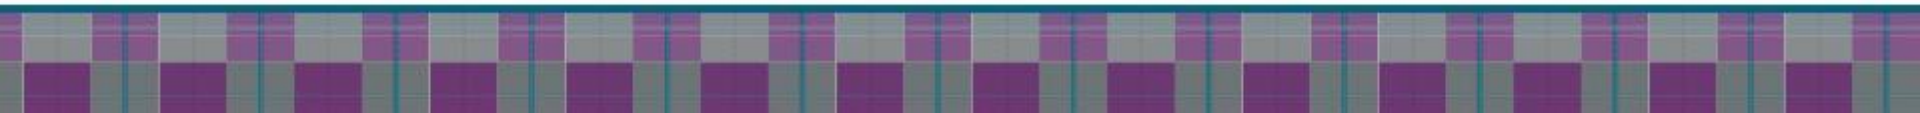

How to participate:

- Register via GitHub or GitLab
- Submit 4 PRs during October
 - Must be approved
 - Must be public repo
 - Must be tagged with one of the official tags
- Repo maintainers can also participate

Learning Git

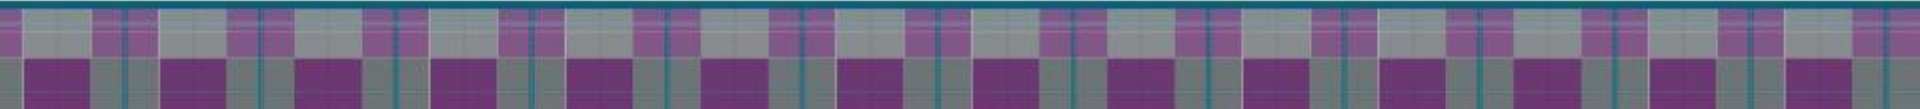

Hands on:

- <https://github.com/benthayer/git-gud>
- <https://learngitbranching.js.org/>
- <https://ohmygit.org/>
- <https://www.atlassian.com/git>

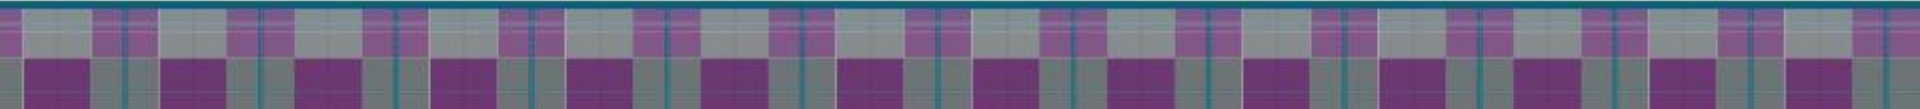

Practise and Contribute:

- <https://github.com/christinaworkman/yyc-wp-mug>
- <https://github.com/WordPress/Learn>
- <https://github.com/search>
- <https://hacktoberfest.com/participation/#beginner-resources>

Happy Contributing!
